

15K Computers Ultrasonic Plastic Welding Machine-2600watt (SE-S1520)

Summary

The 15 KHz normative ultrasonic welding machine conducts ultrasound to the plastic parts by the welding head melts the point contact between the parts, creating a joint. This technology has the advantages of rapid and strong, more importantly; it can make the manufacturing automatic. Ultrasonic welding machine can be used for welding, implanting, forming, riveting, spot welding, renovating, and sewing.

LL-2, Avani Plaza, Near Satellite Towers, Opp H.P. Petrol Pump,
Satellite, Ahmedabad - 380015. Gujarat, India.

Technical Data

Model	SE- S1520
Voltage	220 V
Power	2600 W
Frequency	15KHZ
Air Pressure	4-6 kg/cm ²
Size	800*1000*1850 mm
Weight	80 KG
Productivity	10-20 times/min
Welding Area	260 mm

Functions and Features

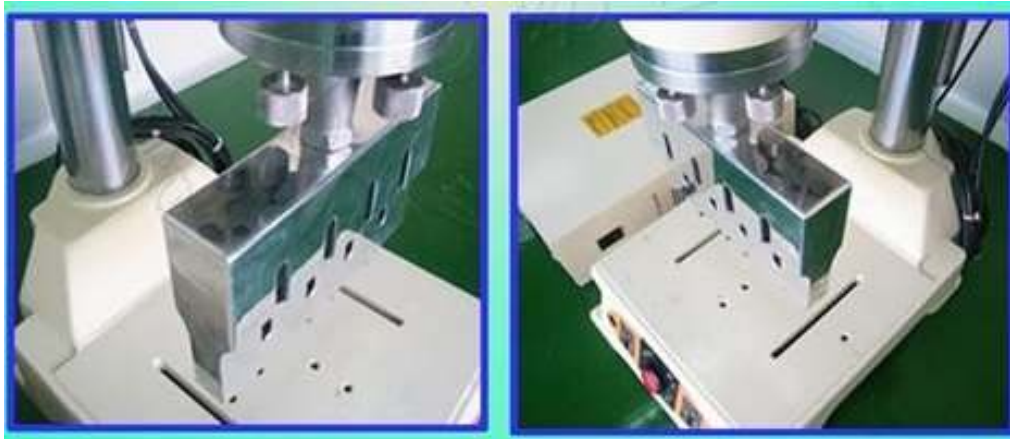

- ✓ Japanese NTK transducer, imported cylinder, stronger power and more stability;
- ✓ Frequency can display automatically when machine works;
- ✓ Dial indicator scale display, mould frames accurately and quickly;
- ✓ Digital control, time accuracy can be millisecond;
- ✓ Base level condition, mould frames quickly.
